PRIYARANJAN PATTNAYAK

Seattle, WA | 206-669-1279 | ppattnay@uw.edu | linkedin.com/in/priyaranjanpattnayak | ⬤ ppattnayak.github.io

A data analytics professional aimed at helping businesses grow by drawing insights & creating compelling stories from data. Effectively showcased analytical, leadership and communication skills through various roles and industry projects.

EDUCATION

University of Washington, Seattle WA	Expected: Jun 2018
Master of Science in Information Systems, Data and Analytics	**(GPA: 3.89/4.00)**
Biju Patnaik University of Technology - College of Engineering and Technology	Jul 2013
Bachelor of Technology – Electrical Engineering	**(GPA: 3.95/4.00)**

TECHNICAL SKILLS

- **Programming**: Python, R, Spark, SQL & C#
- **Data Visualization**: Tableau, Seaborn & Excel
- **Microsoft Suite**: SSMS, SSIS, SSRS & Visual Studio
- **Database Skills**: SQL Server & MongoDB
- **Tools**: RStudio, Jupyter Notebook, Pycharm, git, Weka & Gretl.
- **Concepts:** Regression Analysis, Clustering, Classification, Time Series Analysis & Association Rule Mining
- **Courses and Certification**: Machine Learning A-Z™ (Udemy), M102: MongoDB for DBAs (MongoDB Univ.), Python A-Z™: Python for Data Science (Udemy)

RELEVANT PROJECTS ⬤

Bank Customer Churn Modelling (Linear Classifiers, R & Excel) Github Project   Dec 2017 – Jan 2018
- Created a machine learning model to predict a bank's customer churn rate using logistic regression.
- Compared models using cumulative accuracy profile (CAP); eliminated correlation using variance inflation factor (VIF).

Predicting Domestic Auto Sales in US (Time Series Analysis & R) RPubs Publication ⬤   Nov 2017 - Dec 2017
- Implemented ARIMA on auto sales data from US Bureau of Economic Analysis, to predict 2018 sales.
- Concluded that auto-arima under-differenced the series and compensated for it by adding a MR component.

Blockchain based Voting System (Blockchain, Python & AWS) Github Project   Sep 2017 - Dec 2017
- Created two distinct blockchains in Python: One for voter registration and other for primary ballot.
- Deployed the blockchains in AWS using EC2 and Flask application framework.

Twitter Sentiment Analysis (NLP & R) Github Project   Aug 2017 - Dec 2017
- Scraped tweets on flagship smartphones and derived sentiment score using bag of words from Hu Liu lexicon.
- Visualized the data in R; used hierarchical clustering to find related words(Dendrogram).

Recommendation for Digital Collaboration at PATH, Seattle (Tableau) Tableau Dashboard   Jun 2017 - Aug 2017
- Mined survey data to find user demographics, preference, tool popularity and satisfaction.
- Visualized data(Tableau) and proposed tools that break information silo and bridge communication gap.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services(TCS), Bangalore, India
Database & Reporting Lead

Information Management *(Client – American Express)*   Dec 2014 – Jun 2017
- Led SQL Server maintenance automation and saved the database operation team a combined 450+ hours/month.
- Awarded with TATA Champion Badge for creating a body of knowledge for MongoDB; helped the Centre of Excellence (CoE) in setting up RA (Reference Architecture) for MongoDB.
- Deployed a reporting dashboard to monitor real-time database and node level statistics using Ops-Manager.

Reference Architecture & Engg*. (Client – American Express)*   Sep 2013 – Jun 2017
- Implemented a time series forecasting model, using R, for database capacity planning and SAN addition.
- Analysed the load on each server node, deployed automated SSRS reports that ended up reducing instance overloading.
- Spearheaded re-engineering initiative to minimize SAN and resource utilization in SQL Server databases and data warehouses, which ended up saving 85000$ for IM in 2015.
- Automated SQL Server database turnover workflow using SSIS & SSRS, saving 600+ hours of effort every year.

LEADERSHIP & AWARDS

- Star Performer of the Year- Awarded by TCS for leading value-added initiatives.
- Manager at CoMotion, University of Washington - Led two start-up team's effort towards product commercialization.
